

## **Requirements for in-person, off-SUUC-campus gatherings based on WA State Phase 2 Mandates and CDC Guidelines.**

- In general, the more people you interact with, the more closely you interact with them, and the longer that interaction, the higher the risk of COVID-19 spread.
- Delay or cancel a visit if you or your visitors have symptoms of COVID-19 or have been exposed to someone with COVID-19 in the last 14 days.
- In-home gatherings are permitted to convene up to 5 individuals in Phase 2. These individuals do not need to be from the same household. However, individuals must wear face coverings when individuals from outside of the household participate.
- Encourage social distancing of at least 6 feet during your visit.
- Visit with your friends and family outdoors, when possible. If this is not feasible, make sure the room or space is well-ventilated (for example, open windows or doors) and large enough to accommodate social distancing.
- Arrange tables and chairs to allow for social distancing. People from the same household can be in groups together and don't need to be 6 feet apart from each other.
- Try to avoid close contact with your visitors. For example, don't shake hands, elbow bump, or hug. Instead wave and verbally greet them.
- If possible, avoid others who are not wearing masks or ask others around you to wear masks.
- Keep a list of people you visited or who visited you and when the visit occurred. This will help with contact tracing if someone becomes sick.

### **People of any age with the following conditions are at increased risk of severe illness from COVID-19 and should limit their interactions with other people as much as possible:**

Cancer, chronic kidney disease, COPD, immunocompromised state, obesity, serious heart conditions, Sickle cell disease, and Type 2 diabetes mellitus.
